The aims of the journal are to promote research on the bilingual and multilingual. Bilingual Research Journal carries articles and research notes on all aspects of the bilingual person. Authors are invited to submit their work for consideration.

They are members of the Bilingualism and Psycholinguistics Research Group at the university. Their research focuses on the academic achievement of bilingual students, particularly in math and reading. The authors compared test scores from math and reading across different programs against schools who practiced bilingual instruction. The study followed Spanish-speaking English language learners in English-only literacy instruction, an early-exit bilingual program, or a transition program of instruction.
